

Corporate Fact Sheet

July 2006

Overview: FileMaker, Inc. is the creator/developer of the #1 selling easy-to-use database software -- FileMaker® Pro and the entire FileMaker product line.

Customers and technology experts most frequently cite its ease-of-use, powerful customization options, affordability, and support for Windows, Macintosh and web browsers as the primary reasons for the enduring popularity of FileMaker Pro.

Business, education and government customers rely on FileMaker to manage people, projects, images, assets and other information.

Solutions built with the FileMaker Pro award-winning database technology are used for a wide range of functions, including: project management, asset management, tracking jobs/invoices/billing, web publishing, catalog creation, Customer Relationship Management (CRM), patient records management, logistics management, film & video production, sales & advertising management, workflow automation, business processes tracking, and customer service. The FileMaker line of database software products scales easily from individuals up to large workgroups.

Market Acceptance: With more than 11 million units of FileMaker Pro sold worldwide, FileMaker is used in every part of the private and public sectors worldwide, including:

- Throughout the Forbes Global 500
- Each of the top 250 school districts in the U.S.
- The top 50 undergraduate/doctoral universities in the U.S. and numerous leading universities throughout the world
- The top doctoral universities in the U.S.
- More than 4,000 government agencies and institutions in the U.S.

Among large corporations, FileMaker is licensed within organizations such as:

AT&T, BP, Bank of America, Bristol Meyers, Chase Manhattan, China National Petroleum, CNN, Coca Cola, Inc., Deutsch, Inc., Dreamworks SKG, Hitachi, HBO, International Paper, Lufthansa, Musée du Louvre, Nestle, Nokia, Salomon Skis, Samsung, Charles Schwab, The Smithsonian Institute, Squibb, Target, Tesco, TimeLife Warner, Walgreens and Wal-Mart.

Awards and Reviews: FileMaker Pro has won nearly every possible software industry and editorial technology award in its history. Since 2004, FileMaker Pro has received more than 30 editorial awards worldwide from leading magazines, including “Best Database Software,” SIIA Codie Awards, to “Product of the Year” honors for FileMaker Pro 8 from *PC Magazine* and *Macworld Magazine*.

eWeek

FileMaker Pro 8 Review

“FileMaker Pro 8 has made strong progress in the area of data sharing, particularly in the way Adobe Systems Inc.’s PDF has been incorporated as a way to generate reports. We could create PDF-based reports from any record view, thereby creating single-record reports as well as reports based on multiple records.”

Oct. 24, 2005

PC World

FileMaker Pro 8

“FileMaker Pro, the easiest full-fledged database program I’ve found, made a great leap forward with its last release, adding new relational capabilities. So what are the developers doing for an encore with the \$299 FileMaker Pro 8? Nothing as spectacular, but it offers improvements that make it easier and faster to use.”

Oct. 2005 issue

MacWorld Magazine

”5-of-5” Mice – FileMaker Pro 8 Advanced

“Anybody doing development work in FileMaker Pro 7 Developer, and anybody who skipped version 7, should upgrade to FileMaker Pro 8 Advanced as soon as possible.”

Sept. 20, 2005

PC Magazine

“Editor’s Choice” Award – FileMaker Pro 8

“With the new version of its venerable database software, FileMaker solidifies its position as the ideal tool for knowledge workers who want to enjoy the benefit of relational databases without scaling the learning curve of a more IT-centric product like Microsoft Access.”

Aug. 30, 2005

Lower Cost of Ownership:

- FileMaker helps users become more self-sufficient in handling information management needs, reducing demands on IT resources.
- Both ease of use and easy customization contribute towards low total cost of ownership.

Cross Platform:

Only major database that supports both Windows and Macintosh systems – including Universal binary support for Intel-based

Mac computers -- making it the best choice for customers with different computing platforms.

FileMaker Pro 8.5 runs on:

- Mac OS X
- Windows XP, Windows 2000, Windows 98, NT 4.0 (Service Pack 6)
- Palm and PocketPC

**Enterprise
Integration:**

FileMaker products integrate well with other productivity applications, like Microsoft Office.

FileMaker also supports the standards that make it easy to communicate with large enterprise databases (ODBC, JDBC, XML and SQL queries).

Instant Productivity: Professionals don't need to be programmers or computer experts to use FileMaker Pro.

FileMaker Pro 8.5, featuring the FileMaker Web Viewer Control for web data on demand, comes preloaded with 30 ready-to-use Starter Solutions that can be customized, including:

- Business process tracker
- Contact manager
- Asset management
- Expense report
- Personnel records
- Billing, purchase orders, invoicing
- Time sheets
- Resource Scheduling
- Task management
- and more

**FileMaker
Product Line:**
